National Science Foundation
Broader Impacts Proposal
Writing Workshop and
Presentation

Dr. Bevlee A. Watford, P.E.
Director of NSF's Broadening Participation
in Engineering (BPE) Program

FRIDAY, MAY 22, 2015

9:30AM - 11:00AM - Proposal Writing Workshop
UCI's Calit2 Building - Room 3008

Improving your Success in NSF Proposal Submission
-Refreshments Provided-

This workshop will focus on how to create successful proposals submitted to the NSF. Emphasis will be on: 1) funding sources that are not strictly discipline specific; 2) how to write successful proposals; 3) realities of the review process; and 4) new NSF emphasis on broadening participation, which include initiatives in the 2016 draft budget. The workshop will conclude with a faculty panel with past NSF CAREER Award winners.

11:30AM - 1:00PM - Campus Presentation
UCI's Calit2 Building - Auditorium

Broadening Impacts: An NSF Perspective
-Lunch Provided-

This presentation will focus on the history and current status of the NSF’s perspective on broadening participation. The NSF program director for broadening participation in engineering will discuss how NSF views broadening participation in engineering with respect to proposals submitted to programs within the Directorate. Attendees will leave with more informed knowledge on how to include BPE within their research proposals.
